Summary

Seeking an opportunity in a progressive organization where I can contribute innovative ideas, strong analytical abilities, and a solution-oriented mindset to drive success. Eager to continuously enhance my knowledge, refine skills, and adapt to evolving challenges in a fast-paced environment. Dedicated to teamwork, accountability, and supporting organizational objectives with commitment and professionalism.

Education

DYPCET September 2024 – Present
B.Tech – CSE | 2nd Year | CGPA: 9.5

Skills

Languages: C, C++, Python
Relevant Coursework: Operating System, Computer Network, , Cybersecurity, DSA ,Basics of Data Analysis
Development Skills: HTML, CSS, JS
Development & Office Tools: Git-Hub, VS Code, LinkedIn

Experience

Google Developer Groups on Campus (GDGOC) November 2024 – Present
GDGOC Volunteer – Management Role
As a GDGOC management volunteer, I help in planning and organizing technical events, workshops, and hackathons. I coordinate with speakers and team members, and I actively assist in campaign activities to promote events across campus. I manage promotions, registrations, and event logistics to ensure smooth execution and strong student participation.

Projects

FomoHub – College Technical Event Platform
FomoHub is a college-based technical event website built using HTML, CSS, ReactJS, Node.js, and MongoDB. It helps students stay updated about ongoing and upcoming technical events in their college. The platform ensures easy access to event details so that no student misses important opportunities.

AquaTrack – Water Issue Tracking Platform
Developed AquaTrack using HTML5, CSS, and JavaScript for the frontend, and Node.js with Express.js for the backend. It enables village residents to upload photos and report water-related issues with detailed information. The platform helps the Gram Panchayat efficiently track and resolve water problems in the village.

Certifications & Internships

IBM – Data Analysis Internship: Analyzed and visualized real-world datasets using data analytics techniques to extract insights and support data-driven decision-making.

EduSkills (Google) – Android & AI/ML Virtual Internships: Gained hands-on experience in Android app development and AI/ML fundamentals through Google-supported virtual internship programs.

Deloitte – Cybersecurity Internship: Developed foundational knowledge of cybersecurity principles, threat analysis, and risk management through practical industry-aligned training.

Blender 3D Modeling Competition: Created and presented a 3D model using Blender, showcasing skills in 3D design, modeling, and rendering during a competitive event.
